Academic Projects

Netflix UI-UX Clone

June 2024 – July 2024

Tools: HTML,CSS,JavaScript

The Netflix UI/UX Clone showcases a user-friendly interface designed for streaming movies and TV shows.

Responsibilities :

- Developed user interface using pure HTML,CSS and JavaScript.
- **Link :** <https://yashmac120828.github.io/NetflixUI-UXClone/> (Please use Microsoft Edge)

TechCirculo – A central point where education and collaboration meets

November 2024– March 2025

Tools: HTML,Tailwind CSS, JavaScript,Java,Springboot,JWT,AWS

TechCirculo, a platform designed to connect students, teachers, and alumni who share technological interests. The goal of this project is to create a community where people can share knowledge, collaborate on projects, and stay updated on the latest trends in technology.

Responsibilities:

- Implement the user interface using HTML,CSS tailwind and JavaScript.
- My primary responsibility in this project is frontend development. I am working with HTML, CSS, and JavaScript to create a dynamic and user-friendly interface. Since the backend is being handled separately using Java with Spring Boot and JWT authentication, my focus is on making sure the frontend integrates smoothly with the APIs provided.
